GitHub: github.com/artirix1927

Technical Skills

Languages: Java, Python, JavaScript, HTML, CSS/SCSS, SQL

Frameworks: Django, DRF, Flask, FastAPI, React.js

Databases: PostgreSQL, MySQL, Redis, SQLite

Tools: Git, GitHub, Docker, Docker Compose, Nginx

Other: REST APIs, GraphQL, WebSockets, Kafka, RabbitMQ, Redis Pub/Sub

Concepts: OOP, MVC, microservices, Agile, CI/CD (GitHub workflows)

Projects

WebRTC Video Chat Platform (Full-Stack)

FastAPI, ReactJS, WebRTC, WebSockets, Redis, Docker

Built a peer-to-peer video/audio calling app with real-time chat, friends system, user profiles, and WebSocket signaling. Designed microservice architecture and implemented a responsive React UI.

Key Features:

- P2P audio/video (WebRTC)
- Real-time chat + message history
- Friends list, bios, profiles
- WebSocket signaling backend
- Containerized with Docker & Nginx

E-Commerce Platform (Full-Stack)

Django Graphene, ReactJS, Channels, Kafka/Redis, Docker

Developed a complete shop platform with product catalog, search, filters, reviews, Stripe checkout, and real-time support chat.

Key Features:

- Product search + advanced filters
- Reviews w/ image uploads
- Real-time support chat (Channels)
- Stripe checkout + email notifications
- Kafka/Redis for event streaming and caching

Restaurant Reservation System

Django REST Framework, ReactJS, Docker

Allows users to book tables, view real-time availability, and browse categorized menus. Includes automatic Swagger API docs.

Key Features:

- Real-time table availability
- Category-based menu
- Auto-generated Swagger docs

Experience**McDonalds — Crew Member**

- Worked in a fast-paced environment, collaborating with teams, multitasking under pressure, and maintaining high-quality service.

Open-Source Contributor — Django Framework

- Contributed fixes and improvements to the Django ecosystem (GitHub PRs, issue discussions).
